

Infusion Series[®] Platinum Edition[®] Cold Brew mode

Produce cold brew in minutes with the Infusion Series Platinum Edition's new Cold Brew mode.

Produce fresh cold brew in minutes with the Infusion Series Platinum Edition's new Cold Brew mode, enabling operators to brew an on-demand batch of concentrate or ready-to-drink cold brew quickly and consistently with operational ease. This new feature allows operators to use less coffee, particularly when brewing a finished strength cold brew, and easily add a variety of high margin, handcrafted cold brew beverages to the menu to maximize profits.* Utilizing BUNN's SmartWAVE[®] brewing technology, pulse brew, and a new range of low brewing temperatures, consumers will be delighted to taste the nuanced flavors of the coffee for an elevated cold brew experience.

How it works

A simple software upgrade converts existing Infusion Series Platinum Edition Models to a dedicated Cold Brew machine. The Cold Brew mode will be included as a standard feature on future Infusion Series Platinum Edition models.

FEATURES

Elevated Cold Brew Experience

- ✔ Brew a batch of fresh, on-demand concentrate or finished strength cold brew in minutes*
- ✔ Visually Intuitive Programming™ gives the operator full control to expertly dial in a recipe that produces quality cold brew with speed and consistency from batch to batch
- ✔ Lower range brewing temperature and SmartWAVE[®] technology combined with pulse brew allow for strength and flavor profiling for a smooth, nuanced cold brew beverage

Profitability & Operational Efficiency

- ✔ Easily incorporate brewing into daily tasks, reduce planning time for store managers and shift leaders, and reduce the chance of waste at the end of the day
- ✔ Use less coffee when brewing a typical ready-to-drink cold brew compared to traditional long steep methods*
- ✔ Unlock capacity and increase profits by offering multiple high-margin cold brew items on the menu

*Based on internal testing
